Specific massage techniques & alternative therapies

Thai massage is a type of full body massage that uses a mixture of deep tissue pressure, muscle and joint stretching, and gentle adjustments of the body into yoga-like poses. It's a technique that has been around for thousands of years and is one of the most common forms of alternative medicine in Thailand. Thai massage can help relax the body and mind. Numerous studies have found clinical benefits to Thai massage, including improvements in pain, joint mobility, and muscle stiffness. Come at the Retreat by Aegeo Spas and enjoy a Royal Thai Massage!

Royal thai massage

🕒 75'

Using a relaxing blend of traditional Thai aromatic herbal oils, all tension is released from the body and mind with unique techniques to this sublime Oriental Massage.

Pamper your Face for clean & shiny skin!

The skin of the face is particularly sensitive as it is exposed and unprotected in the sun's rays, which in recent years are more intense than ever in the city exhaust but also in the burdened atmosphere of the interior spaces. These are also the main factors that cause the skin to age quickly and alter the facial features. The sun's rays create intense wrinkles and spots while impure air clogs facial pores and creates black spots and pimples. All this, combined with the reduced production of collagen and elastin by the body, the substances that maintain the glow and youthfulness of the skin, make the face look aged and tired. At the Retreat by Aegeo Spas we achieve the ideal result through our face cleaning and deep hydration treatments!

Face Cleaning ⌚ 60' + Deep Hydration ⌚ 30'
